

# **Promoting the introduction of local 10-digit dialing and new area code 428 in New Brunswick**

## **Progress Report #3**

**February 2023**

## **Communications Progress Report**

---

This progress report is submitted to the Relief Planning Committee (RPC) and CRTC staff for the 506 overlay project. The report outlines the public relations and advertisement activities that the Telecommunications Alliance (TA) has undertaken, in the second phase of the communications campaign, to generate awareness for the introduction of local 10-digit dialing and new 428 area code in New Brunswick. Also included in this document are the reports submitted by individual carriers.

### **About the Telecommunications Alliance**

Canada's major telecommunications service providers have joined forces to develop communications campaign informing the public about the introduction of new area codes in certain calling areas.

### **Communication Objectives**

- Increase awareness of 10-digit dialing and the new 428 area code that will serve the same geographic region as the 506 area code.
- Inform consumers and businesses
  - Make them aware of the new measures introduced in response to increasing demand for telecom services.
  - Encourage the use of 10-digit dialing and inform customers they must reprogram equipment before January 20, 2023.
  - Limit negative perceptions and reactions to these changes.

### **Communication Strategies Phase 2 – Action incentive campaign**

Awareness Campaign- focuses on raising awareness of the introduction of 10DD and a new area code.

- Target media, consumers and businesses impacted by the change
- Ensure that the appropriate government authorities in New Brunswick are informed of the area code relief plan (federal, provincial and municipal government offices and elected officials).
- Web Advertisement

## PROGRESS REPORT
