CSCN Participants

The Canadian Numbering Administration has received modified R-NRUF data forecasting a need for additional CO Code assignments over the next several years in NPA 705. This has caused the Projected Exhaust Date to move inwards from June 2012 to February 2012. The Canadian NPA Relief Planning Guidelines state that the CNA will declare Jeopardy where the CRTC has not yet established a Relief Method and Date and the CNA projects an NPA will exhaust within 36 months. Therefore, NPA 705 is now in a Jeopardy Condition.

Code holders and Projected Code Holders should expect a J-NRUF request from the CNA in approximately 30 days.
